- Control on TV

You can view iPad/iPhone/iPod media files on TV and control them by the iXtreamer remote control

- Control without TV

The iPad/iPhone/iPod can be controlled by the remote control but without the TV output.

Menus and file lists are visible on iPad/iPhone/iPod screen only but the files can be played on TV.

Please refer to the "DOCK Connection" section

Controlling iXtreamer Dock

Docking the iPhone/iPod/iPad

Docking

Docking the iPhone (iPad/iPod)

The Docking Guide is used for iPhones 3GS only and should be removed when using iPhone 4 or iPad.

Please remove a protective cover from your iPad before docking it.

Docking

After docking your iPhone (iPad/iPod) pay attention to the LED status.

Normal : Green LED

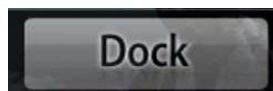

Normal: Green LED blinking

If a problem occurs take the device out and reconnect.

When the device is recognized the following screen will appear on TV.

If the player starts with an iPhone already docked press the DOCK button.

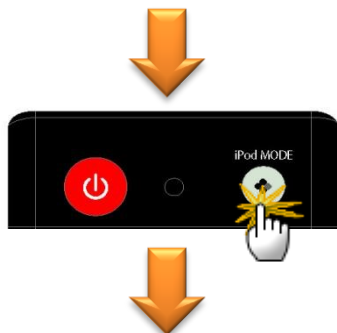

Using Dock

Return to the Media Library

To exit Dock menu

Press DOCK button

Return to the Main Menu

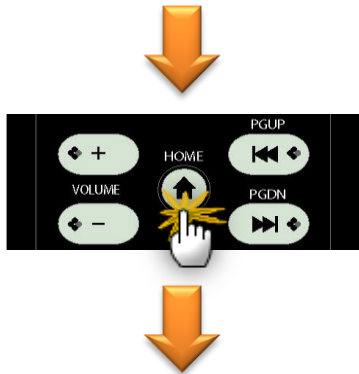

Press the button any time to access Dock menu.

Using Dock

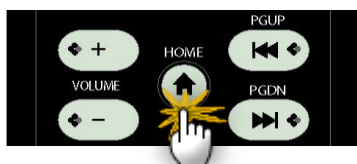

Return to the DOCK mode

To go to the main DOCK menu.

Press HOME button.

Home button will always return you to main screen of the Dock menu.

Using Dock

Outdated iPod version (Not iOS)

The following screen will appear if the device is not fully supported by the iXtremer.
If your iPod is not running iOS then the files can only be browsed on its screen and not on a TV.

To view a video file on TV please run the file on your iPod.

Using Dock

iOS 4.x and the latest Apple devices.

The following screen appears when an Apple device is docked.

English

Use video menu

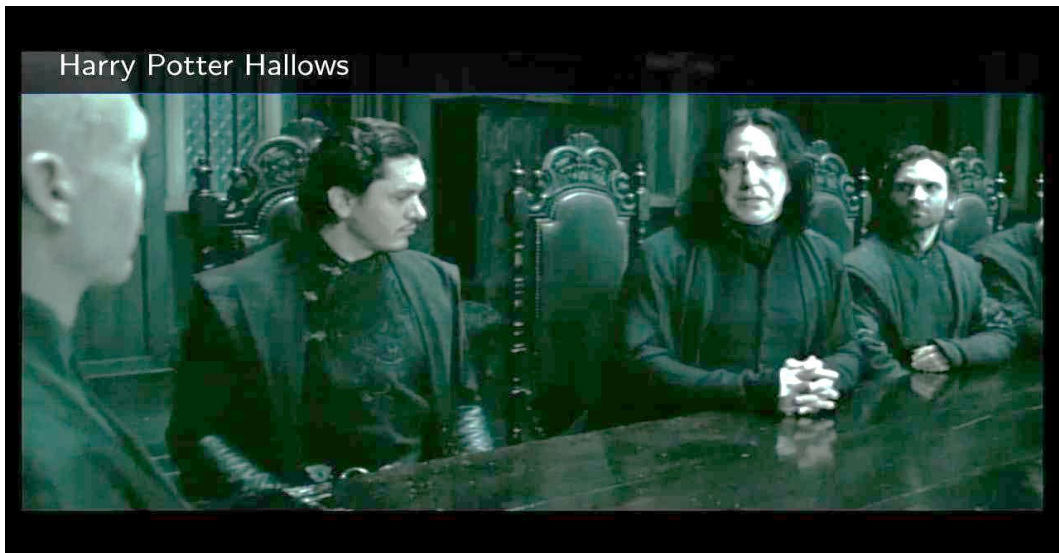

Open the video list of iTunes or Podcast on iPod.

If the required file is not listed on iTunes it can't be opened this way. Please return to the Dock Main Menu.

Using Dock

Use  (Info) button during playback to see the movie file name.

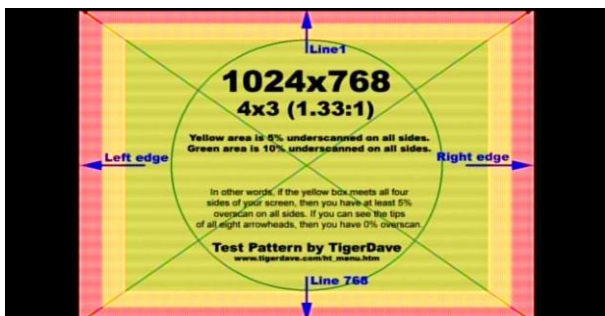

English

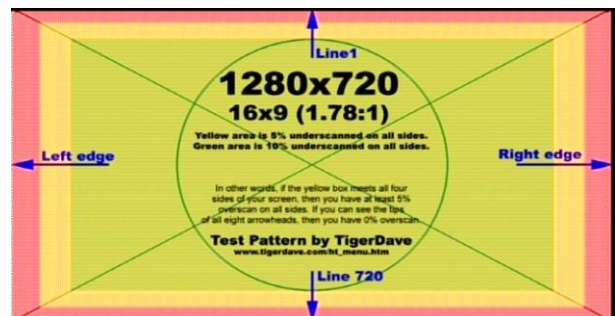

Press Home or Home button on the to return to the Dock main menu screen.

Dock accepts resolution up to 480i

Out put screen ratio:

4:3 ratio play

16:9 ratio play

Note: While playing 4:3 ratio movie files on a 16:9 TV please change the ratio to avoid "black borders" on the sides.

Using Dock

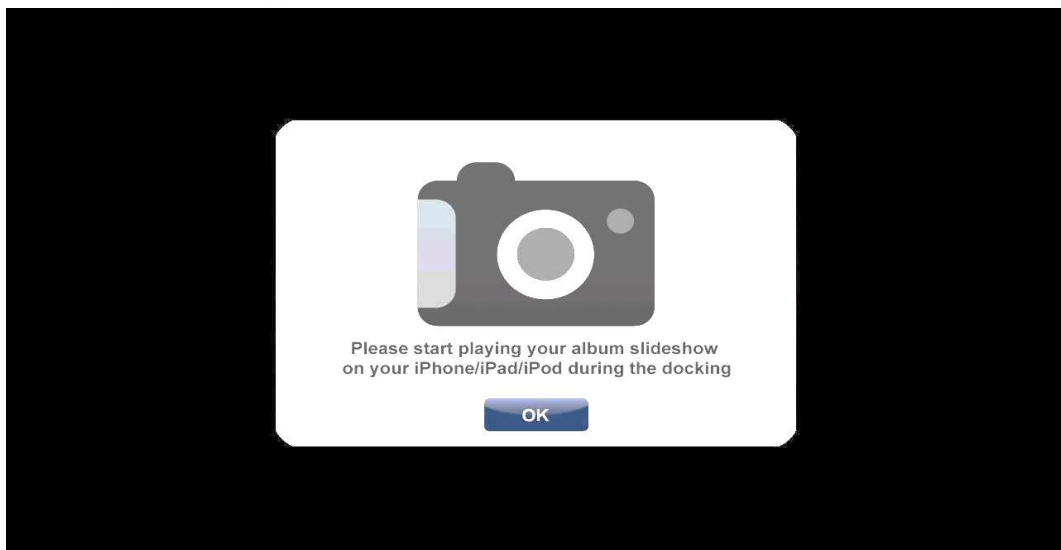

How to watch a video recorded by iPhone

To watch a video file recorded by iPhone, access the Photos on your iPhone screen to find it.
