

3G MODEM SUPPORT

**We guarantee compatibility of our 3G modems:
GOCLEVER GCM01 and GOCLEVER GCM02.**

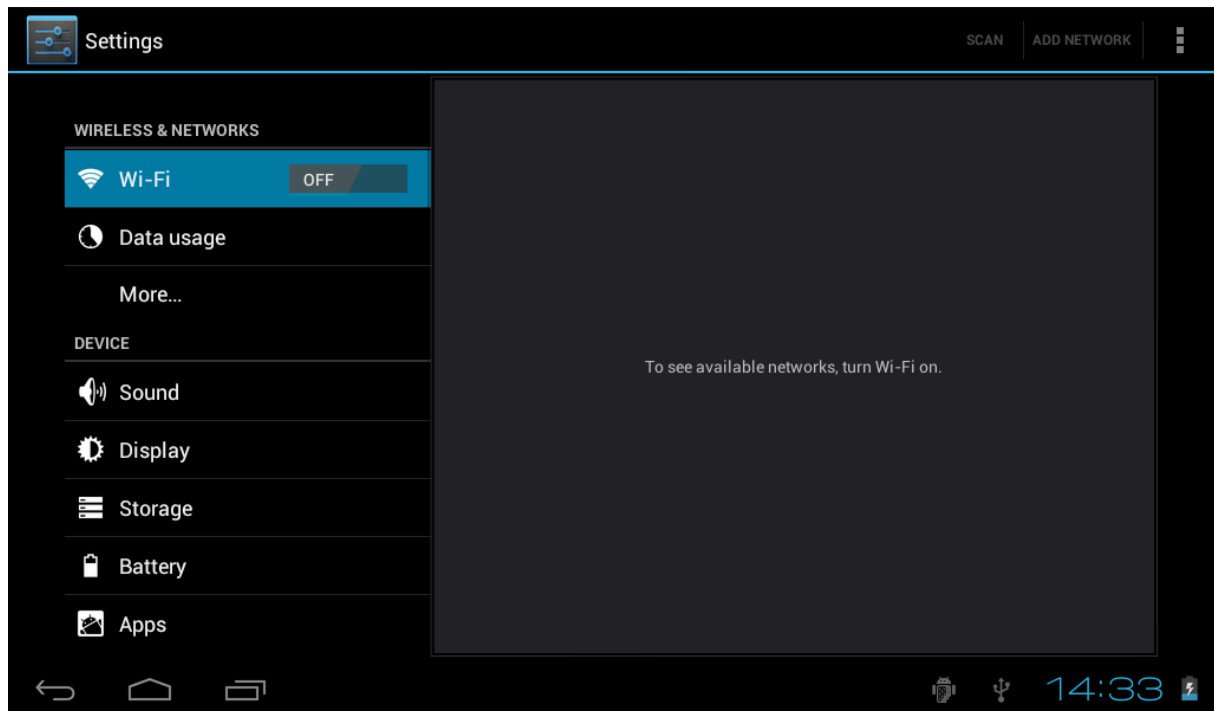

Due to the fact that modem manufacturers' technical specifications may change we recommend our customers to verify compatibility before purchasing any modem.

How to check modem compatibility with GOCLEVER tablet ?

1) Go to **Settings**, tap **Wi-Fi**

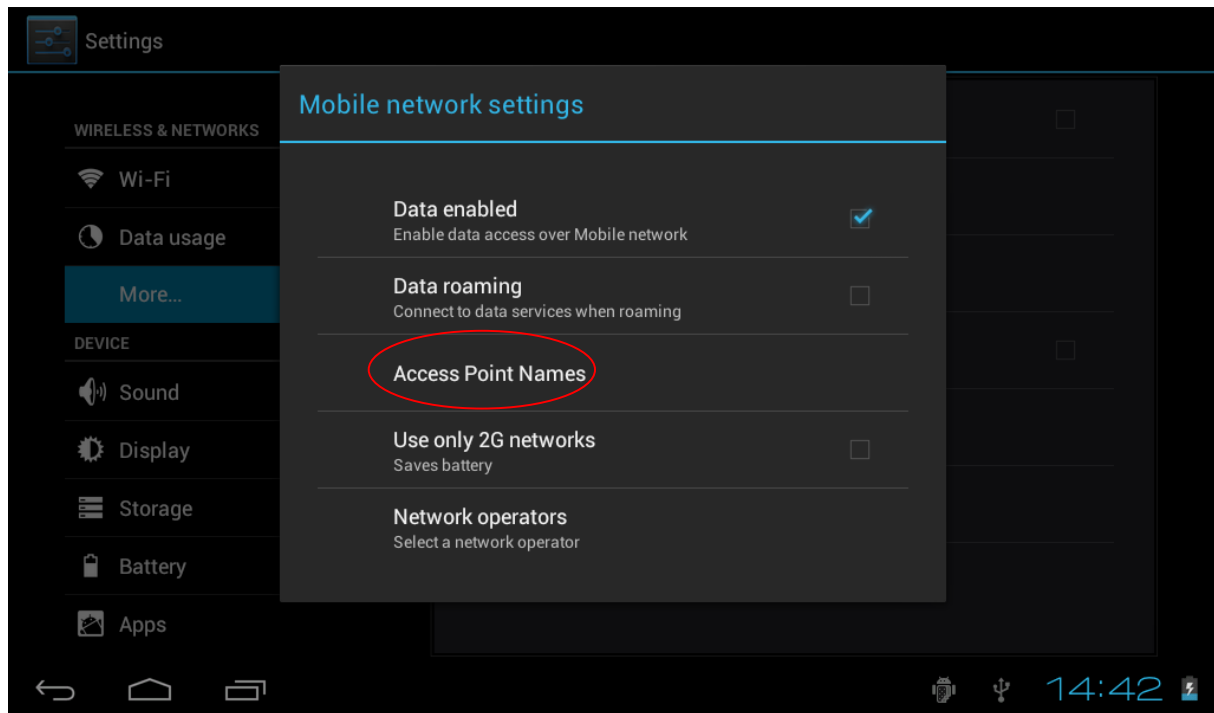

2) Turn Wi-Fi off, set switch to **OFF**.

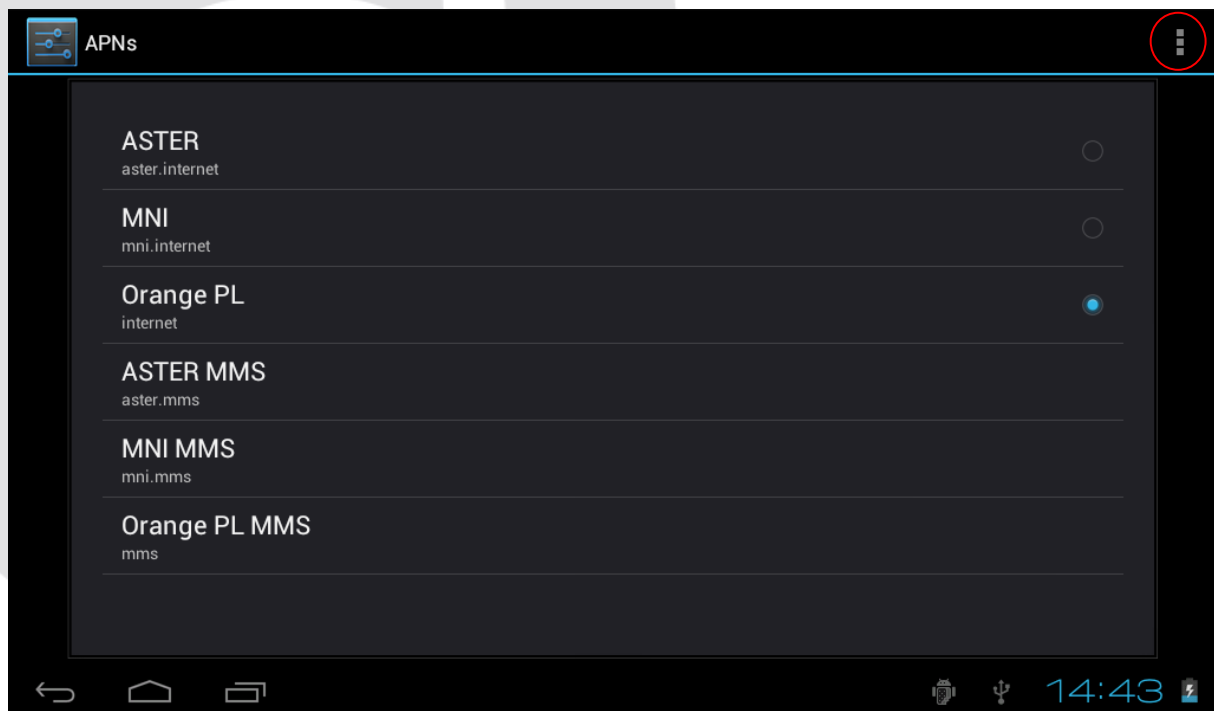

3) Tap **More...** and then **Mobile networks**. Now connect modem to tablet and wait about **1 minute**.

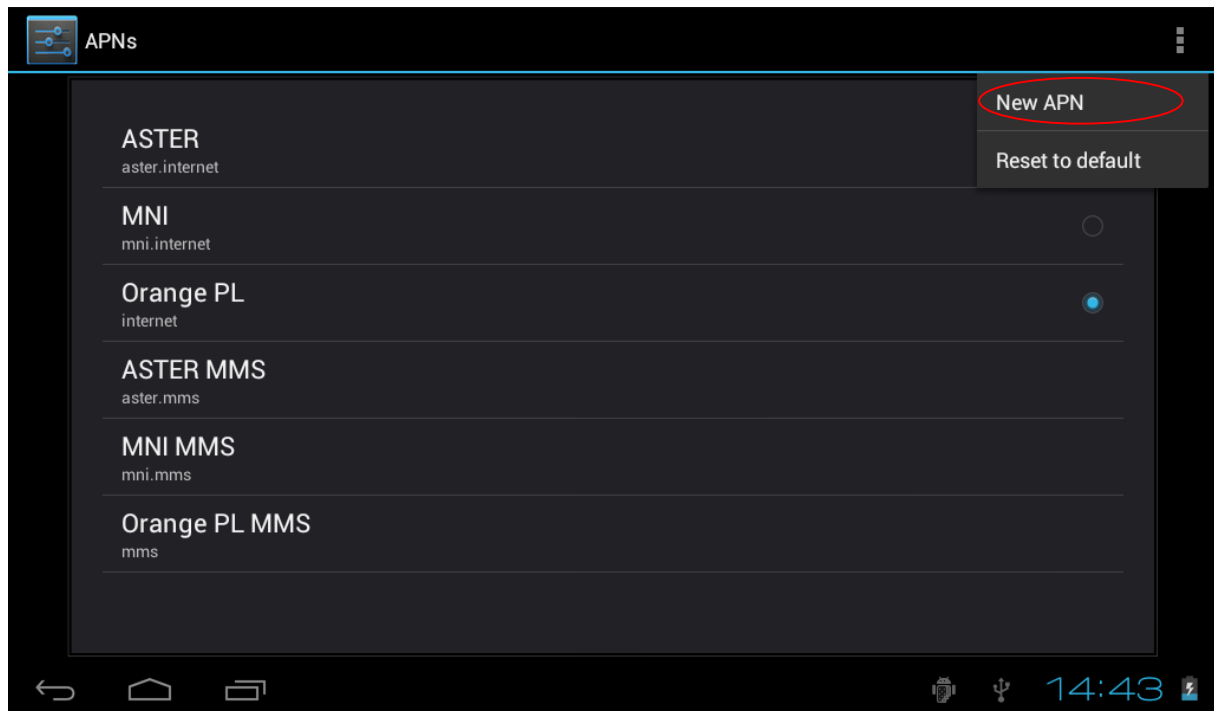

4) Tick **Data enabled** and then tap **Access Point Names**

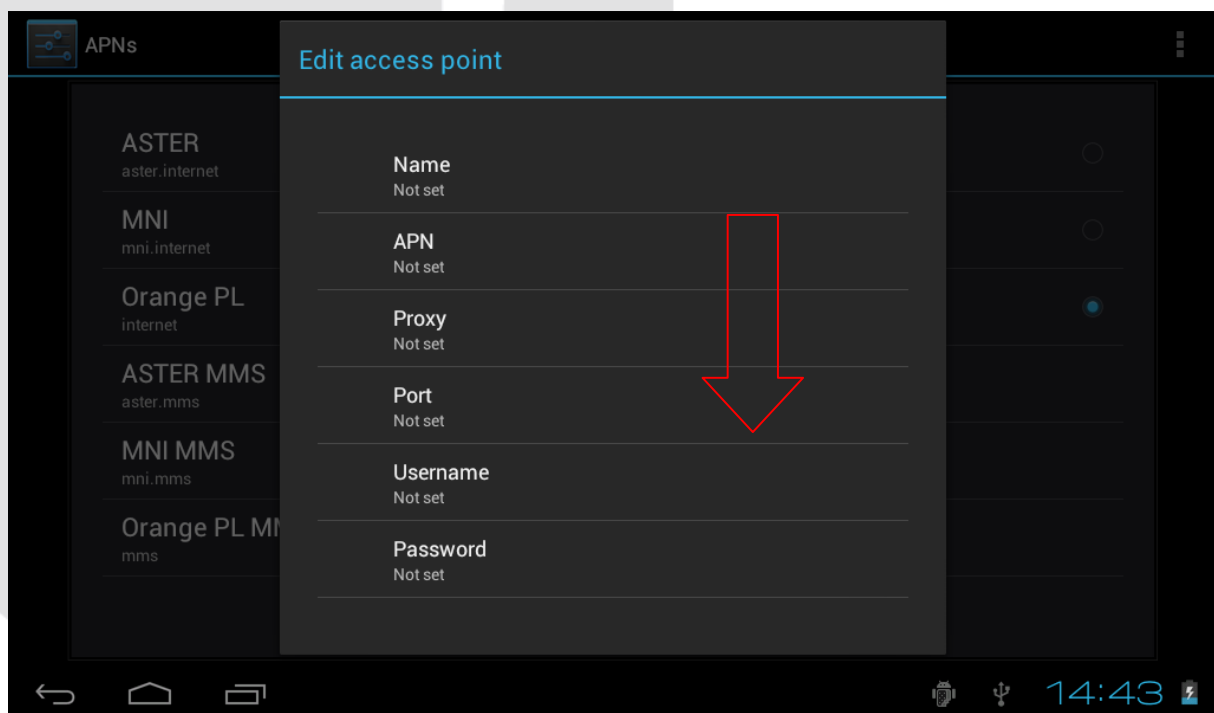

5) Tap settings

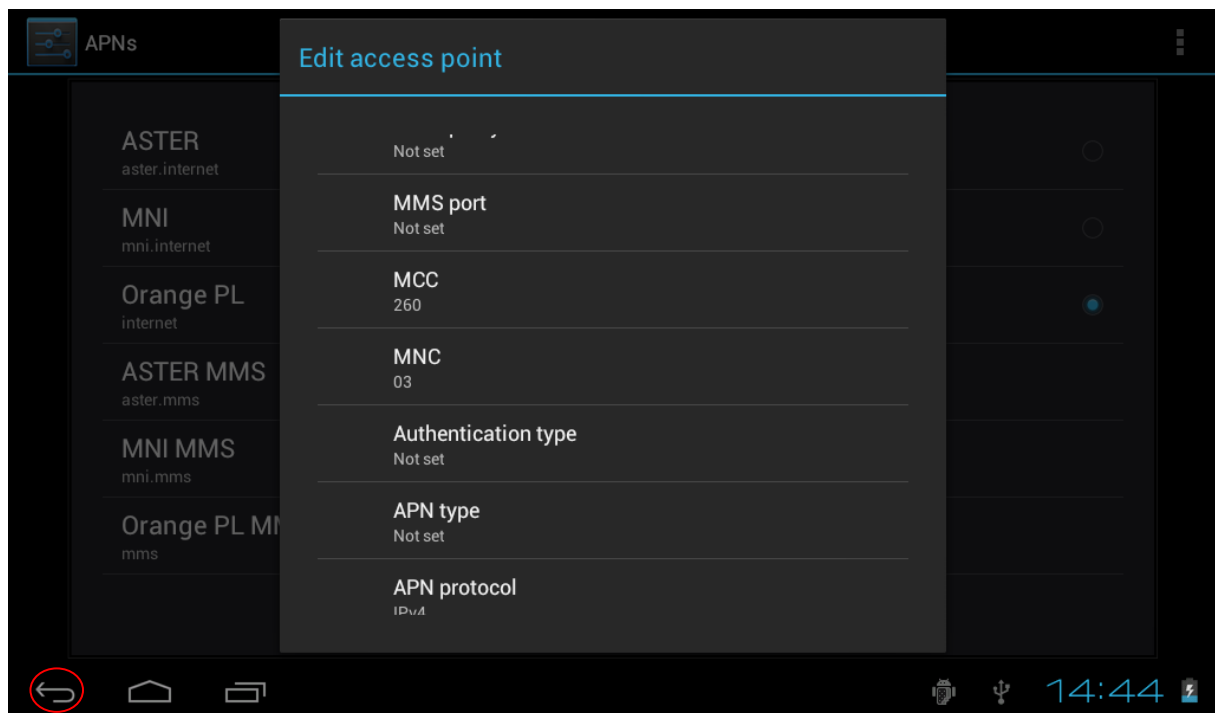

6) Tap **New APN**

7) Scroll down the list

8) If parameters **MMC** and **MNC** are available tablet works with the modem correctly, now input your network provider's settings: **Name**, **APN** and **Username** also **Password** if needed. Tap  to save your settings.

9) After saving correct settings modem will connect to 3G network.
